Purpose: This release file.

File name: 100ACGN1C0-opensource-list.xls

Purpose: This file lists the open source packages.

Read Me First

1. Please download or upgrade to the latest Nebula Mobile APP version 17.00, for registering your SCR 50AXE security router.
2. The system default configuration is summarized as below:
 - 1、 The default device administration username is "admin", and the password can be found on the device back label (reminding that the login credentials will be re-assigned by Nebula after registering your device)
 - 2、 Default LAN IP is Router Mode: 192.168.168.1
3. Please **DO NOT** turn off the power during the firmware upgrade. Please wait until the device reboots and the SYS light stays on
4. To reset device to system default, user could press RESET button for 5 seconds and the device would reset itself to system default configuration and then reboot.

Features: V1.00(ACGN.1)C0

Modifications in V1.00(ACGN.1)C0 - 2023/05/02
